**NOTICE OF UNITED STATES POSTAL SERVICE OF FILING
FUNCTIONALLY EQUIVALENT INBOUND COMPETITIVE MULTI-SERVICE
AGREEMENT WITH A FOREIGN POSTAL OPERATOR**
(December 13, 2013)

In accordance with 39 C.F.R. § 3015.5 and Order No. 546,¹ the United States Postal Service (Postal Service) hereby gives notice that it has entered into an Inbound Competitive Multi-Service Agreement with a Foreign Postal Operator. This notice concerns the inbound portion of a bilateral agreement with Canada Post Corporation (Canada Post) that the Postal Service seeks to include within the Inbound Competitive Multi-Service Agreement with Foreign Postal Operators (MC2010-34) product.

Prices and classifications for competitive products not of general applicability for Inbound Competitive Multi-Service Agreements with Foreign Postal Operators were previously established by the Decision of the Governors of the United States Postal Service on the Establishment of Prices and Classifications for Inbound Competitive Multi-Service Agreements with Foreign Postal Operators, issued August 9, 2010 (Governors' Decision No. 10-3).² Furthermore, the Postal Regulatory Commission

(Commission) previously determined, in Order No. 1088, that the predecessor agreement that was the subject of Docket No. CP2012-4 with Canada Post should be included in the Inbound Competitive Multi-Service Agreements with Foreign Postal Operators 1 (MC2010-34) product. That agreement will expire by its own terms on December 31, 2013. The Commission is familiar with the negotiation cycle and regulatory process associated with this long-standing bilateral relationship. The 2014-2015 version of the agreement is substantively similar to the 2012-2013 agreement reviewed by the Commission in Order 1088. The notable differences are described below.

Consistent with its proposal for identification of baseline agreements to determine functional equivalence, which was submitted in its Motion for Partial Reconsideration in Docket No. R2013-9,³ the Postal Service uses the 2012-2013 Canada Post agreement as the baseline agreement in this docket. The 2014-2015 bilateral agreement with Canada Post and supporting documents establishing compliance with 39 U.S.C. § 3633 and 39 C.F.R. § 3015.5 are being filed separately under seal with the Commission; a redacted copy of the agreement is filed as Attachment 2. An Application for Non-Public Treatment of Materials Filed under Seal is included as Attachment 1. A certified statement concerning the Canada Post Agreement that is required by 39 C.F.R. § 3015.5(c)(2) is included with this filing as Attachment 3. A redacted version of the supporting financial documentation is included with this filing as a separate Excel file.

Identification of the Inbound Competitive Multi-Service Agreement with a Foreign Postal Operator

In Order 1088, the Commission determined that the 2012-2013 Canada Post Agreement fits within the Mail Classification Schedule (MCS) language included as Attachment A to Governors' Decision No. 10-3.⁴ The competitive services offered to Canada Post include rates for inbound Expedited Parcels USA and EMS.

The 2014-2015 version of the agreement between the Postal Service and Canada Post includes the same services. The parties intend for the effective date of the rates concerning items included in the agreement to be January 1, 2014. The rates included in the agreement shall remain in effect for two years after the effective date of this agreement unless terminated sooner, which is unchanged from the predecessor agreement.

In this docket as in PRC Docket CP2012-4 for the predecessor agreement, the Postal Service presents only the inbound portions of the agreement with Canada Post. The rates paid by the Postal Service to Canada Post for outbound delivery of the Postal Service's competitive products in Canada were not presented previously to the Commission and are not presented here. Those rates represent supplier costs to the Postal Service, which are built into the prices that the Postal Service charges its shipping customers for outbound competitive products to be delivered in Canada.

Additionally, services offered through a market test of the International Merchandise Return Service, PRC Docket No. MT2013-2, are not addressed by this notice. Finally, terms and conditions associated with International Business Return

Service are not presented for the Commission's review, because the returns to Canada for delivery there are an outbound delivery cost, and the return service for delivery of items to U.S. customers has not yet been launched. The Postal Service will file the appropriate amendment to the Agreement and corresponding notice prior to the launch of this inbound service.

Application for Non-public Treatment

The Postal Service maintains that the redacted portions of the contract and related financial information should remain confidential.⁵ Attachment 4 to this Notice is the Postal Service's application for non-public treatment of materials filed under seal in this docket. A full discussion of the required elements of the application appears in Attachment 1.

Functional Equivalency of Inbound Competitive Multi-Service Agreements with Foreign Postal Operators

The inbound portion of the Canada Post Agreement is substantially similar to the inbound portion of the predecessor agreement in terms of the products being offered under the contract and the contract's cost characteristics. Like the predecessor agreement, the 2014-2015 Canada Post Agreement also fits within the parameters outlined by Governors' Decision No. 10-3, which establishes the rates for Inbound Competitive Multi-Service Agreements with Foreign Postal Operators. There are, however, differences between the inbound portion of the 2014-2015 Canada Post Agreement and the inbound portion of its predecessor.

⁵ By the terms of the current bilateral agreement, Canada Post and the Postal Service have jointly marked the document for redactions and agreed upon the justifications in support of the application for non-public treatment of materials filed with this Notice.

Most of the differences are immaterial to the Commission's analysis for functional equivalency as demonstrated by prior functional equivalency determinations within this product grouping. As with any renegotiated agreement, specific dates and internal references have been updated to reflect the current terms. These changes are not noted in this summary. Also absent from the summary are changes related to contact information for the Parties' representatives and to renumbered, but unchanged, references to the Universal Postal Union Acts coming into effect on January 1, 2014. The notable differences between the 2014-2015 Canada Post Agreement and its predecessor agreement, as amended, include the following:

- Article 13, which concerns the procedures to be followed when the USPS engages in the regulatory filing process, includes a more expansive definition of "routine filings."
- Article 20 no longer provides for notices to be provided by Registered Mail; rather, notices may now be provided via email and EMS service, in addition to alternatives previously available to the Parties.
- The terms and conditions of Article 26 were considered to be more appropriately contained in an attachment to the main body of the agreement; thus, those terms were moved to Attachment 10, and all subsequent articles were renumbered.
- Attachment 1—Rates has been modified to include Tracked Packet Retail and Tracked Packet Commercial products, and rates for the market test International Merchandise Return Service were added.

- Attachment 2 reflects changes to negotiated thresholds, targets, penalty determination formulas, and settlement processes; the terms now enable the Parties to make changes to Critical Entry Times and Latest Arrival Times without amending the Agreement, should either Party experience a change to its domestic network structure or delivery standards; and the PRIME product has been added.
- Attachment 3 previously included entries in the Table of Differences to account for errors in the underlying EMS Standard Agreement, which have been corrected by the EMS Cooperative's General Assembly; hence, entries related to those errors are no longer included in the Table of Differences.
- Attachment 5 now includes certain operations initiatives intended to improve quality of service for both market dominant and competitive products.
- Attachment 7 now includes product development and collaborative initiatives, some of which are related to existing or potential new competitive products.
- Attachment 10 includes Customer Service terms previously found in Article 26.

Because the two Canada Post Agreements incorporate the same cost attributes and methodology, the relevant cost and market characteristics are the same. The Postal Service does not consider that the specified differences affect either the

fundamental service the Postal Service is offering or the fundamental structure of the agreements. Nothing detracts from the conclusion that these agreements are “functionally equivalent in all pertinent respects.”⁶

Conclusion

For the reasons discussed, and as demonstrated by the financial data filed under seal, the Postal Service has established that the Canada Post Agreement is in compliance with the requirements of 39 U.S.C. § 3633 and is functionally equivalent to its predecessor agreement within the Inbound Competitive Multi-Service Agreements with Foreign Postal Operators (MC2010-34) product. Accordingly, the 2014-2015 Canada Post Agreement should be added to the Inbound Competitive Multi-Service Agreements with Foreign Postal Operators (MC2010-34) product.

ATTACHMENT 1

APPLICATION OF THE UNITED STATES POSTAL SERVICE FOR NON-PUBLIC TREATMENT OF MATERIALS

In accordance with 39 C.F.R. § 3007.21, the United States Postal Service (Postal Service) hereby applies for non-public treatment of certain materials filed with the Commission in this docket. The materials pertain to the inbound competitive agreement between the Postal Service and Canada Post Corporation (Agreement) filed in this proceeding. The Agreement and supporting documents establishing compliance are being filed separately under seal with the Commission. A redacted copy of the Agreement is filed with the Request as Attachment 2. In addition, a redacted version of the supporting financial documentation is included with this public filing as a separate Excel file.

The Postal Service hereby furnishes the justification required for this application by 39 C.F.R. § 3007.21(c) below.

(1) The rationale for claiming that the materials are non-public, including the specific statutory basis for the claim, and a statement justifying application of the provision(s);

The materials designated as non-public consist of information of a commercial nature that would not be publicly disclosed under good business practice. In the Postal Service's view, this information would be exempt from mandatory disclosure pursuant to 39 U.S.C. § 410(c)(2) and 5 U.S.C. § 552(b)(3) and (4).¹ Because the portions of the materials that the Postal Service is

¹ In appropriate circumstances, the Commission may determine the level of confidentiality to be afforded to such information after weighing the nature and extent of the likely commercial injury to the Postal Service against the public interest in maintaining the financial transparency of a government establishment competing in commercial markets. 39 U.S.C. § 504(g)(3)(A). "Likely commercial injury" should be construed broadly to encompass other types of injury, such as

applying to file only under seal fall within the scope of information not required to be publicly disclosed, the Postal Service asks the Commission to support its determination that these materials are exempt from public disclosure and grant its application for their non-public treatment.

(2) Identification, including name, phone number, and email address for any third-party who is known to have a proprietary interest in the materials, or if such an identification is sensitive, contact information for a Postal Service employee who shall provide notice to that third party;

In the case of this Agreement, the Postal Service believes that the only third party with a proprietary interest in the materials is the foreign postal operator with whom the contract is made. The Postal Service has already informed Canada Post Corporation (Canada Post), in compliance with 39 C.F.R. § 3007.20(b), of the nature and scope of this filing and its ability to address its confidentiality concerns directly with the Commission. The Postal Service identifies Terry Dunn, General Manager, International Relations, Canada Post Corporation, as the appropriate contact on behalf of Canada Post. Mr. Dunn's contact information is provided in the unredacted version of the Agreement in Article 20, Notices. Canada Post has requested that any communications regarding confidential treatment of these data be sent with a courtesy copy to Ewa Kowalski, Director, International Mail Settlement, Canada Post Corporation. Ms. Kowalski's contact information is provided in the unredacted version of the Agreement in Attachment 4, paragraph 7.3, Notice.²

harms to privacy, deliberative process, or law enforcement interests. PRC Order No. 194, Second Notice of Proposed Rulemaking to Establish a Procedure for According Appropriate Confidentiality, Docket No. RM2008-1, Mar. 20, 2009, at 11.

² In the event of a request for early termination of non-public treatment under 39 C.F.R. § 3007.31, a preliminary determination of non-public status under 39 C.F.R. § 3007.32, or a request

(3) A description of the materials claimed to be non-public in a manner that, without revealing the materials at issue, would allow a person to thoroughly evaluate the basis for the claim that they are non-public;

In connection with its Request filed in this docket, the Postal Service included an Agreement and financial work papers associated with that Agreement. These materials were filed under seal, with redacted copies filed publicly, after notice to the affected postal operator. The Postal Service maintains that the redacted portions of the Agreement and related financial information should remain confidential.

With regard to the Agreement filed in this docket, the redactions withhold the actual prices being offered between the parties under the Agreement, as well as the particulars of financial performance incentives and assignments of liability, certain thresholds for eligibility for discounted services, and the specific products and operational improvements that the parties have agreed to make the focus of their collaborative development for the North American market. The redactions applied to the financial work papers protect commercially sensitive information such as underlying costs and assumptions, negotiated pricing, and cost coverage projections. To the extent practicable, the Postal Service has limited its redactions in the work papers to the actual information it has determined to be exempt from disclosure under 5 U.S.C. § 552(b).

for access to non-public materials under 39 C.F.R. § 3007.40, the Postal Service notes, on Canada Post's behalf, that differences in the official observation of national holidays might adversely and unduly affect Canada Post's ability to avail itself of the times allowed for response under the Commission's rules. In such cases, Canada Post has requested that the Postal Service convey its preemptive request that the Commission account for such holidays when accepting submissions on matters that affect Canada Post's interests. A listing of Canada's official holidays can be found at <http://www.pch.gc.ca/pgm/ceem-cced/jfa-ha/index-eng.cfm>.

(4) Particular identification of the nature and extent of commercial harm alleged and the likelihood of such harm;

If the portions of the Agreement that the Postal Service determined to be protected from disclosure due to their commercially sensitive nature were to be disclosed publicly, the Postal Service considers that it is quite likely that it would suffer commercial harm. Information about negotiated pricing is commercially sensitive, and the Postal Service does not believe that it would be disclosed under good business practices. Foreign postal operators could use the information to their advantage in negotiating the terms of their own agreements with the Postal Service. Competitors could also use the information to assess the offers made by the Postal Service to foreign postal operators or other customers for any possible comparative vulnerabilities and focus sales and marketing efforts on those areas, to the detriment of the Postal Service. If the areas in which Canada Post and the Postal Service intend to collaboratively develop new products and services were to be disclosed publicly, their competitors could use this information to preemptively enter the market in those areas. The Postal Service considers these to be highly probable outcomes that would result from public disclosure of the redacted material.

The financial work papers include specific information such as costs, assumptions used in pricing decisions, the negotiated prices themselves, projections of variables, and contingency rates included to account for market fluctuations and exchange risks. All of this information is highly confidential in the business world. Competitors would be able to take advantage of the information to offer lower pricing to postal customers, while subsidizing any

losses with profits from other customers. Eventually, this could freeze the Postal Service out of the relevant inbound delivery services markets. Given that these spreadsheets are filed in their native format, the Postal Service's assessment is that the likelihood that the information would be used in this way is great.

Potential customers could also deduce from the rates provided in the Agreement or from the information in the workpapers whether additional margin for net contribution exists under Agreement's prices. The settlement charges between the Postal Service and the foreign postal operator constitute costs underlying the postal services offered to each postal operator's customers, and disclosure of this cost basis would upset the balance of Postal Service negotiations with contract customers by allowing them to negotiate, rightly or wrongly, on the basis of the Postal Service's perceived supplier costs. From this information, each foreign postal operator or customer could also attempt to negotiate ever-decreasing prices, such that the Postal Service's ability to negotiate competitive yet financially sound rates would be compromised. Even the foreign postal operator involved in the Agreement at issue in this docket could use the information in the work papers in an attempt to renegotiate the rates in its instrument by threatening to terminate its current Agreement.

Price information in the Agreement and financial spreadsheets also consists of sensitive commercial information of the foreign postal operator. Disclosure of such information could be used by competitors of the foreign postal operator to assess the foreign postal operator's underlying costs, and thereby develop a benchmark for the development of a competitive alternative. The

foreign postal operator would also be exposed to the same risks as the Postal Service in customer negotiations based on the revelation of their supplier costs.

(5) At least one specific hypothetical, illustrative example of each alleged harm;

Harm: Public disclosure of the prices in the Agreement, as well as any negotiated terms, would provide foreign postal operators or other potential customers extraordinary negotiating power to extract lower rates from the Postal Service.

Hypothetical: The negotiated prices are disclosed publicly on the Postal Regulatory Commission's website. Another postal operator sees the price and determines that there may be some additional available margin below the rates provided to either operator. The other postal operator, which was offered rates comparable to those published in the Agreement, then uses the publicly available rate information to insist that it must receive lower rates than those the Postal Service has offered.

Harm: Public disclosure of information in the financial work papers would be used by competitors and customers to the detriment of the Postal Service.

Hypothetical: A competing delivery service obtains unredacted versions of the financial workpapers from the Postal Regulatory Commission's website. It analyzes the workpapers to determine what the Postal Service would have to charge its customers in order to comply with business or legal considerations regarding cost coverage and contribution to institutional costs. It then sets its own rates for products similar to what the Postal Service offers its customers below that threshold and markets its purported ability to beat the Postal Service on price for international delivery services. By sustaining this below-market

strategy for a relatively short period of time, the competitor, or all of the Postal Service's competitors acting in a likewise fashion, would freeze the Postal Service out of one or more relevant international delivery markets. Even if the competing providers do not manage wholly to freeze out the Postal Service, they will significantly cut into the revenue streams upon which the Postal Service relies to finance provision of universal service.

Harm: Public disclosure of information in the financial workpapers would be used detrimentally by the foreign postal operator's competitors.

Hypothetical: A competing international delivery service obtains a copy of the unredacted version of the financial workpapers from the Postal Regulatory Commission's website. The competitor analyzes the workpapers to assess the foreign postal operator's underlying costs for the corresponding products. The competitor uses that information as a baseline to negotiate with U.S. companies to develop lower-cost alternatives.

Harm: Public disclosure of the areas of collaboration for operational improvements would be used by competitors to assess areas of weakness to exploit in marketing efforts.

Hypothetical: A competitor reviews the products, processes and operations that the Parties have identified as needing improvement and then exploits that information to advertise those aspects of its own products as being superior to the products offered to U.S. and Canadian customers of the Parties to this Agreement.

(6) The extent of protection from public disclosure deemed to be necessary;

The Postal Service maintains that the redacted portions of the materials filed non-publicly should be withheld from persons involved in competitive decision-making in the relevant market for international delivery products (including both private sector integrators and foreign postal operators), as well as their consultants and attorneys. Additionally, the Postal Service believes that actual or potential customers of the Postal Service for this or similar products (including other postal operators) should not be provided access to the non-public materials. This includes the counter-party to the Agreement with respect to all materials filed under seal except for the text of the postal operator's Agreement, to which that counter-party already has access.

(7) The length of time deemed necessary for the non-public materials to be protected from public disclosure with justification thereof; and

The Commission's regulations provide that non-public materials shall lose non-public status ten years after the date of filing with the Commission, unless the Commission or its authorized representative enters an order extending the duration of that status. 39 C.F.R. § 3007.30.

(8) Any other factors or reasons relevant to support the application.

None.

Conclusion

For the reasons discussed, the Postal Service asks that the Commission grant its application for non-public treatment of the identified materials.

(a) The USPS represents that as part of its legislated requirement to secure the U.S. Postal Regulatory Commission ("PRC") approval of this Agreement and in other subsequent regulatory filings, the USPS is required to file this Agreement and supporting documentation with the PRC in a docketed proceeding. Given that this Agreement contains confidential information of CPC, the disclosure of which could cause harm to CPC, the USPS shall, prior to filing any part of this Agreement with the PRC or any redacted version of any part of this Agreement, consult with CPC with the objective of achieving consensus between the parties with respect to the scope of what the USPS will file, particularly:

- (i) the parts of the Agreement that are to be identified as non-public and claimed as exempt from disclosure;
 - (ii) the placement of any redactions that are to appear in place of the parts identified as non-public; and
 - (iii) the wording that the USPS proposes to use in its applications for non-public treatment of the materials claimed as exempt from disclosure.
- (b) CPC further understands that any unredacted portion of the Agreement and any redactions and supporting information will be available on the PRC's public website, www.prc.gov. In addition, the USPS is required to file other information in connection with this Agreement (including the USPS's revenue, the USPS's cost, or the USPS's volume data) in other PRC dockets, including Dockets ACR 2013, ACR 2014, ACR 2015, etc. For filings in PRC dockets, the parties agree that the provisions of clause (a) shall be read with the necessary changes with the objective of the parties always reaching a consensus with respect to the parts of the material to be filed that are to be identified as non-public and the wording of any redactions and submissions.

- [REDACTED]

[REDACTED]

(d) The USPS agrees that CPC at all times maintains the right, in accordance with the PRC's rules, to address CPC's confidentiality concerns directly with the PRC. The procedure for making an application to the PRC for non-public treatment of materials believed to be protected from disclosure is published as Title 39, Code of Federal Regulations, Section 3007.22 found on the Commission's website: www.prc.gov/Docs.63/63467/Order225.pdf. With the exception of the matters identified in clause (c) above, the USPS will provide CPC with timely notice of the docket numbers of all PRC proceedings in which the USPS has a filing requirement that may involve disclosure to the PRC of matters related to this Agreement or other confidential information of CPC.

(e) Without limiting the generality of the other clauses of this Article, the USPS represents that one aspect of its filing requirements is to give notice to the PRC as to which parts of the Agreement are to be added to the competitive products list and which are to be added to the market dominant products list. In this regard, both parties acknowledge that what may be identified as competitive products and what may be identified as market dominant products in any filing with the PRC are so identified with respect to the U.S.A. market only and would not necessarily have the same classification in the Canadian market.

(f) CPC also acknowledges that USPS shall furnish a copy of this Agreement to the U.S. Department of State.

14. Dispute Resolution Process

(a) Except as otherwise provided in this Agreement, the Parties will endeavour to resolve all disputes between the Parties relating to this Agreement at the level of their respective representatives identified in Article 20.

(b) If the dispute still cannot be resolved, the Parties will escalate it up within their respective organizations. If the dispute cannot be resolved even after it has been escalated to the top level in each organization, *i.e.*, the level of Canada Post's President and United States Postal Service's Postmaster General (or the equivalents to those positions at the time), then, if there is still no resolution, the Parties shall engage in non-binding mediation. If a resolution still cannot be found, the Parties agree to submit the dispute to binding arbitration to take place in Windsor, Ontario (Canada) or Detroit, Michigan (USA). The parties shall alternate between these locations for each separate dispute, with the first such arbitration proceeding being held in Windsor, or another mutually agreed to location, under the Rules of Arbitration of the International Chamber of Commerce (ICC) by three arbitrators appointed in accordance with the Rules. For any reason, which shall include but not be limited to the partial or full enforcement of a binding judgment by the arbitrators, either party may enter said judgment or an award of the arbitrators in any court of competent jurisdiction in the country of the party against whom the judgment or award is to be enforced.

15. Temporary Suspension of Service

Except for payment obligations neither Party shall be liable for temporary suspension of services, delays, or inability to perform due to causes outside of its reasonable control including, but not limited to, acts of God, or labour disruptions. On-Time and Scanning Pay-for-Performance objectives and penalties shall, however, be adjusted to take account of the temporary service suspensions, delays or inability to perform due to causes outside a Party's reasonable control.

16. Assignment

Neither Party may assign this Agreement without the prior written consent of the other Party.

17. Waiver

(a) No delay or omission by either Party to exercise any right or power accruing upon any non-compliance or default by the other Party with respect to any of the terms of this Agreement shall be construed as a waiver of such non-compliance or default.

(b) A waiver by either of the Parties of any breach of the terms of this Agreement shall not be construed to be a waiver of any preceding or succeeding breach.

(c) A Party shall not be deemed to have waived any matter under this Agreement unless that Party has given the other Party a written notice that the first-mentioned Party has waived the matter in question.

18. Conditions Precedent

(a) At the time of signing this Agreement, CPC represents and warrants that it has obtained all necessary approvals for the comprehensive package of rates set out in this Agreement.

(b) The Parties acknowledge and understand that all obligations of the USPS under this Agreement shall be contingent on the USPS receiving approvals from, and/or non-objection by (hereinafter "Conditions Precedent") one or more internal and external bodies that have oversight responsibilities. Conditions Precedent may include but are not limited to: approvals or, if applicable, non-objection, from USPS management, the USPS executive committee, the Governors of the USPS, and the U.S. Postal Regulatory Commission. At the time of signing this Agreement, the USPS represents and warrants that the only Conditions Precedent remaining to be fulfilled on its side are the rate approvals required from the PRC for the southbound "market dominant products" rates and the southbound "competitive products" rates.

(c) The Parties acknowledge that the Agreement might not be approved by the PRC. Until such time as both these Conditions Precedent are fulfilled that are necessary to provide the products or services contemplated under the Agreement, no obligation shall exist for the USPS or CPC and no benefit or rights granted through this Agreement shall inure to either Party unless and until the Conditions Precedent shall have been fulfilled.

(d) In the event that the Conditions Precedent are not fulfilled, the USPS and CPC shall have no liability, which shall include no obligation to pay costs associated with any action taken by CPC prior to the fulfillment of Conditions Precedent. Further, in the event of the failure of any Condition Precedent, neither Party shall be held liable for any damages including, without limitation, the following: actual damages; special damages; indirect damages; incidental damages; punitive damages; consequential damages; or any other damages, which shall include but not be limited to damages for loss of business profits; business interruption; any other loss; and/or any cost incurred by either Party attributable to such non-approval such as attorney's fees.

19. Effect of Partial Invalidity

The invalidity of any portion of this Agreement will not and shall not be deemed to affect the validity of any other provision. In the event that any provision of this Agreement is held to be invalid, the parties agree that the remaining provisions shall be deemed to be in full force and effect.

20. Notices

(a) For each of the Modified Agreement on the International Exchange of EMS Items between the U.S. Postal Service and Canada Post, the Multi-Services Agreement, and any other services for which a specific agreement setting out its own terms and conditions is added to this Agreement as an attachment, notices, requests, or other communications with respect to the specific agreement and the services provided under it shall be given in accordance with the terms and conditions of the relevant attachment without reference to any aspect of the notice provisions that are set out here in the body of this Agreement. All other notices, requests, or other communications required or permitted to be given under this Agreement ("Notices") shall, unless otherwise specifically provided for in this Agreement, be given in writing in accordance with clause (b).

Any Notice sent by facsimile shall be deemed to have been received by the Party to whom it was addressed on the day following the day on which it was sent.

(d) Either Party may change its address for Notice to another address by Notice to the other Party given in accordance with clause (b). All addresses for Notice must be addresses to which Notices can be personally delivered.

21. Term

This Agreement and its Attachments shall bind the Parties for the period beginning on January 1, 2014 (the "Effective Date") and ending on December 31, 2015 (the "Term"), unless terminated

earlier in accordance with Article 22. Notwithstanding the Effective Date set forth in the previous sentence, Articles 1 through 30 of this Agreement and Attachment 6 (Confidentiality Provisions) shall be effective immediately upon the later of the Parties' signatures below. This Agreement and all Attachments shall remain in effect from the Effective Date until the Agreement end date or until terminated, except where an Attachment provides otherwise.

22. Termination

(a) Subject to clause (b), either Party may terminate this Agreement without cause upon at least 90 days' written notice to the other Party. However, if this Agreement is terminated under the preceding sentence, each of the specific agreements that are attached to this Agreement shall be deemed to be unaffected by such termination, to the extent that those agreements contain an express method of termination. Each of the specific agreements that are attached to this Agreement may only be terminated in accordance with the terms and conditions of that specific agreement.

23. Negotiated Commercial Arrangement

Each of the Parties acknowledges that this Agreement sets out the terms and conditions of a negotiated commercial arrangement between the Parties and is not an agreement entered into or subject to international law. This Agreement is only binding on the United States Postal Service and Canada Post Corporation as a Crown corporation.

24. Compliance with Applicable Laws when Operating in the Other Party's Country

Nothing in this Agreement shall relieve a Party of its obligation to comply with the laws in force in the other Party's country with respect to any operations that the first-mentioned Party carries out in the other Party's country.

25. Application of the *Universal Postal Convention*

For the period during which both Parties are signatories to the *Universal Postal Convention*, the obligations of the Parties under the *Universal Postal Convention* remain in effect except to the extent that this Agreement defines other terms and conditions or arrangements between the Parties, in which case this Agreement shall take precedence.

26. Survival of Various Articles of the 1981 *Postal Convention*

With respect to the "Postal Convention between Canada and the United States of America" that was signed on September 14, 1981, by the Postmasters General of Canada and the United States (the "1981 *Postal Convention*"), the Parties agree to apply Article 7 and Article 23 of the 1981 *Postal Convention* and, shall consider taking such steps as necessary to suspend the outdated provisions of the 1981 *Postal Convention* and in any event, between the Parties, the Parties shall consider those outdated provisions to be suspended.

27. Previous Bilateral Agreement Superseded

The Canada Post – United States Postal Service Bilateral Agreement that was signed on December 21, 2011, by the United States Postal Service as represented by its Vice President and Managing Director, Global Business, Giselle Valera, and signed on December 21, 2011 by Canada Post as represented by its Chief Operating Officer, Jacques Côté, is superseded by this Agreement as of January 1, 2014 assuming all conditions precedent are satisfied.

28. Entire Agreement

(a) This Agreement, including the Attachments listed in clause (b), and any other document or portion of a document that is expressly incorporated into this Agreement by reference constitutes the entire umbrella agreement between the Parties for the exchange of International Products and Services and no representations, negotiations, or conditions either oral or written shall bind the Parties except as expressly set out in this Agreement. However, where an attachment to this Agreement is itself set up with a signature block at the end of the attachment, it is a specific agreement in itself and the services to be provided under that specific agreement shall be provided in accordance with the terms and conditions of that specific agreement.

(b) The Attachments to this Agreement as of the signing date are as follows:

ATTACHMENT 2 SCANNING AND ON-TIME QUALITY OF SERVICE MEASUREMENT AND PAY-FOR-PERFORMANCE

A. OBJECTIVES:

1. Provide incentives to encourage competitive levels of customer visibility for scanning of USPS northbound products and CPC's southbound products.
2. Agree on scanning performance targets/thresholds, data sources, measurement systems, validation methodology, and financial impacts for Pay-for-Performance incentive arrangements for each Party's products.
3. Provide incentives to encourage competitive levels of on-time service performance for delivery of USPS northbound products and CPC's southbound products.
4. Agree to on-time delivery performance targets/thresholds, data sources, measurement systems, validation methodology, and financial impacts for Pay-for-Performance incentive arrangements for each Party's products.
5. Both Parties agree that they will provide treatment in the receipt, processing and delivery of postal traffic which is at least comparable to that provided to similar postal traffic from other postal administrations.
6. Both Parties agree that they will give best efforts to unload, receive, process and deliver inbound international mail in accordance with operating plans for such international inbound mail.

B. LETTER POST

General Framework for Measurement and Compensation

The general framework for measurement and compensation of Letter Post products will be the UPU level [REDACTED]

Product streams covered

1. Northbound Letter Post streams* excluding M Bags, Registered Mail, [REDACTED]

2. Southbound Letter Post streams* excluding M Bags, Registered Mail, [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

Measurement of On-time Delivery

Measurement of on-time delivery of product in these streams will be based on the US-Canada test pieces included in the [REDACTED]

The delivery standards to be applied will also be those in effect for each of the Parties in the [REDACTED]

However, either Party, in the event of a change to its domestic network structure and/or delivery standards, will submit updated standards, Latest Arrival Times (LATs) and/or Critical Tag Times (CTTs) to the UPU International Bureau and to International Post Corporation (IPC), [REDACTED]

[REDACTED]

Measurement of on-time delivery service performance for purposes of this Agreement will be limited to product actually sent from the USPS to Canada Post, or from Canada Post to the USPS. The Parties have arranged for the production of reports by IPC in order to apply the rules of the UPU level system only to the test items sent between the Parties.

Quality of Service Pay-for-Performance Financial Elements

Compensation for each year will be based in general on the application of the [REDACTED]
[REDACTED] compensation formula in effect for that year.

C. EMS

General Framework for Measurement and Compensation

The general framework for measurement and compensation of EMS products will be based, in principle, except as provided for in the Determination of Penalties section below, on that laid out in the EMS Cooperative document known as “Pay-for-performance Plan” for 2013 in place for the duration of this bilateral agreement and in the Modified Agreement on the International Exchange of EMS Items between the United States Postal Service and Canada Post in Attachment 3.

Product streams covered

1. Northbound EMS (also known as the USPS product called Priority Mail Express International)
2. Southbound EMS (also known as the Canada Post product called EMS - Xpresspost USA™ documents and merchandise)

Measurement of Scan Performance

Measurement of scan performance will follow the methods of the EMS Cooperative for arrival scanning and for delivery scanning.

Measurement of On-time Delivery

Measurement of on-time delivery and on-time transmission of delivery scan data will follow the methods of the EMS Cooperative.

The delivery standards to be applied will also be those in effect for each of the Parties with the EMS Cooperative.

However, the Parties may agree to include additional offices for acceptance of inbound product without formal amendment of this Annex. In this case, associated delivery standards information; LAT/CETs, etc. must be reported to either the EMS Cooperative or IPC as appropriate to support the complete tracking of this product.

Either Party, in the event of a change to its domestic network structure, or delivery standards, will submit updated standards, LATs and/or CETs to the UPU International Bureau and to IPC. These updates to standards, LATs and / or CETs, once validated by the EMS Cooperative or as agreed to mutually by CPC and USPS, will amend the standards, LATs and or CETs on file with and used by IPC to calculate on-time delivery performance and measurement.

Quality of Service Pay-for-Performance Financial Elements

Pay-for-Performance compensation for each year will be based in general on the application of the EMS plan referenced above.

Determination of Penalties

The following text will modify the general application of “EMS Pay-for-performance Plan 2013” Article 4, paragraphs g through j:

Penalty values for settlement purposes for each stream (northbound or southbound) will be determined on a quarterly basis as follows:

D. Air Parcel Products

General Framework for Measurement and Compensation

Given that the Parties wish to have relatively customized performance measurement arrangements in place for these products, there will not be a general framework based on any existing multilateral third-party performance plan. However, to the extent that this attachment is silent on a particular matter of interest, the Parties may jointly agree in writing, but without formal amendment of this Annex, to apply measures already in place at the UPU level for Parcel services in such instances or to pursue third-party measurement options.

Product streams covered

1. Northbound Air Parcels (also known as the USPS product called Priority Mail International)
2. Southbound Expedited Parcel™ – USA [REDACTED]

Measurement of Scan Performance

Basis for measurement

Scan performance for Air Parcel products will be measured based on [REDACTED] Parcel

anomalies agreed on as a basis for measurement performed during 2012-2013 will be maintained in this agreement and excluded from the population being measured.

Scan Bar-code Label Prefixes

Scan performance for these bar coded products will be measured based on the population of items for each product using product-specific prefixes on bar codes as listed below:

Product	Product Specific Prefixes on Barcodes
----------------	--

NB Air Parcel	
SB Expedited Parcel™ – USA	

Exclusion of Return to Sender items

Measurement reports will be designed to ensure the exclusion of Return to Sender (undeliverable, refused, unclaimed) items or such other items as are not in conformity with the bar-coding prefixes described above.

Minimum data transmission quality expectations

The sending party must transmit [REDACTED] failing which the financial elements as described below for that product stream will not be applied for that quarter.

Performance reporting frequency

Performance reports will be produced on a monthly basis to support diagnostic activity and to support pay-for-performance. However, as noted later, pay-for-performance penalties will be determined on a quarterly basis, and quarterly reports will be used to support this activity.

Cut-off time interval for inclusion of delivery scan data in the measurement reports

In light of the requirement to match delivery scan data to its associated arrival or dispatch scan data, the measurement reports will be designed to provide for inclusion of delivery scans for up to 30 days after the corresponding dispatch scan for the same item.

Right to retransmit scan event data

Upon discovery of a failure to successfully transmit scan event data to the proper location (mail box) for use in measurement reporting, a Party may with notice to the other Party re-transmit the missing or incorrect scan event data. The Parties have up to 30 days after the issuance of the associated monthly performance measurement report to discover any such failure and to file notice with the other Party, after which such re-transmission will no longer be permitted.

Diagnostic measurement and reporting frequency

For this bilateral, commencing January 1, 2014, the Parties will arrange for the provision of third party performance measurement, of calculation of scanning and on-time performance and of production of reports by International Post Corporation (IPC) at a mutually agreed frequency and schedule.

Financial Elements for Scan Quality Pay-for-Performance

Measurement of On-time Delivery

Basis for measurement

On-time delivery performance will continue to be measured for these products based on the proportion of items which [REDACTED]

Delivery Standards and LAT/CETs to be applied

In principle, once published by the UPU, the parcel delivery standards to be applied (including Latest Arrival Times (LATs) and/or Critical Entry Times (CETs) shall be provided to each party, and also provided to IPC for its third party performance measurement and calculations.

Should a situation arise where either Party does not have UPU level delivery standards for a particular agreed-upon new point of entry, then delivery standards corresponding to that point of entry will be validated according to a process to be agreed upon by the Parties when it is needed.

Either Party, in the event of a change to its domestic network structure and / or delivery standards, will submit updated standards, LATs and/or CETs to the UPU International Bureau and to IPC. These updates to standards, LATs and / or CETs will change the standards, LATs and or CETs on file with and used by IPC to calculate on-time delivery performance and measurement, without the need to formally amend this Annex.

In the event of a change to its domestic network structure and/or delivery standards, either Party can submit its updated standards, LATs and/or CETs to the other Party and to IPC at any time using the notification process described here. The change will take effect on performance measurements starting the first day of the next quarter following such notice. However, to allow IPC sufficient time for amending its measurement systems, the Parties agree to provide a minimum of two weeks advance notification prior to the start of the new quarter in which these updated standards, LATs and / or CETs would take effect.

Stopping the Clock While in Customs

The principles to be applied for stopping the clock for time in Customs are as follows:

[REDACTED]

Accommodations for Force Majeure

The principles and accommodations to be applied to force majeure will be the same

[REDACTED]

[REDACTED]

Stopping the Clock for Non-operating Days

[REDACTED] will be used as basis to stop the clock for measurement and the validation of delivery standards and calculation of on-time delivery.

Exclusion of Remote Locations

The Parties will agree a set of "remote location" postal codes/zip codes for which measurement of on-time performance will not occur, provided always that such lists [REDACTED] postal codes/zip codes otherwise being measured, and provided that such lists are supported by an explicit description of the rationale for exclusion (e.g., less-than-5(-or-6)-day delivery to this location).

Exclusion of Return to Sender items

Measurement reports will be designed to ensure the exclusion of Return to Sender (undeliverable, refused, or unclaimed) items or such other items as are not in conformity with the barcoded prefixes described above.

Right to Retransmit Scan Event Data

Upon discovery of a failure to successfully transmit scan event data to the proper location (mail box) for use in measurement reporting, that Party may with notice to the other Party re-transmit the missing or incorrect scan event data. The Parties have up to 30 days after the issuance of the associated monthly Pay-for-Performance measurement report to discover any such failure and file notice with the other Party, after which such re-transmission will no longer be permitted.

Cut-off Time Interval for Inclusion of Delivery Scan Data in the Measurement Reports

In light of the requirement to match delivery scan data to its associated arrival scan data, the measurement reports will be designed to provide for inclusion of delivery scans for up to 30 days after the corresponding dispatch scan for the same item.

On-Time Quality Pay-for-Performance Financial Elements

Pay-for-Performance Measurement and Reporting Frequency

The Parties will conclude at the earliest opportunity arrangements with IPC to refine and provide measurement reports for all of these same products on a quarterly frequency, starting with the period of January to March, 2014. The Parties will establish with IPC the deadlines for production of such reports, and the support that IPC may require in order to adhere to these deadlines.

Target Threshold to Be Met

For each of the products, the on-time target threshold to be met each quarter is [REDACTED].

3.3 Contracting Options

Option A (Access to Discounts): The USPS will be responsible to ensure each Originator who wishes to ship items pursuant to this Agreement completes such documentation as Canada Post may require for Publications Mail or Addressed Admail. In particular, each Originator will be responsible to complete and enter into the agreement with Canada Post for the applicable Service(s). Such Agreement with Canada Post will be the same as the standard agreements signed by Canada Post with its domestic customers. The "Bill To" information will identify either the Originator or the USPS and will be determined on a case-by-case basis. The "Bill To" party will be liable for each such Shipment sent under this Agreement, including but not limited to payment and volume obligations. If the Originator is entitled to any rebates, such rebates will be paid directly to the "Bill To" address. Should the USPS be identified as the "Bill To" party,

it will be responsible to make the necessary arrangements with the Originator with respect to such rebates.

Option B (No discounts): If the USPS wishes to take full responsibility for each Originator's shipment, it may ship qualifying Publications Mail or Addressed Admail, items under this Agreement at the Applicable Published Prices (e.g., standard non-discounted "published" prices available to Canadian customers). Neither the USPS nor the Originator will be entitled to and both will waive all rights to any rebates or discounts that may otherwise be available. The USPS will be responsible to complete the applicable documentation and use the following customer agreement authorization number (03429792) on documentation along with the Originator's name.

3.4 Details of Dispatch for International Direct Entry Items

3.4.1 The USPS agrees to comply with the dispatch information described in 3.4.2 below for each International Direct Entry Shipment. The USPS shall provide Canada Post with the name and address of the Originator of the International Direct Entry items, and provide the appropriate paperwork relevant to each Shipment being sent using the Electronic Shipping Tools. In the case of Option A of paragraph 3.3, the USPS agrees to include the Originator's name, customer number and agreement number. In the case of Option B of paragraph 3.3, the USPS agrees to include the Originator's name and customer agreement authorization number. The USPS shall also indicate its customer number 03429792 as the "Mailed By" and "Paid By" party in the relevant documentation.

3.4.2 Dispatch Information, Labels and Bills

3.4.2.1 Use of Specific Dispatches for International Direct Entry items

- a) Specific dispatch types assigned by the UPU, such as AUH for items requiring priority airmail treatment in Canada and CUH for items requiring non-priority treatment in Canada (Addressed Admail and Publications Mail are non-priority services in Canada. CUH is required for these items.)
- b) All dispatches must be documented electronically in the UPU PREDES message format using AUH or CUH coding as noted in 3.4.2.1 (a) above.
- c) Each pallet or receptacle will bear a CN35 receptacle label with a PREDES message compatible barcode.

3.4.2.2 Exchange Office

International Direct Entry items from the USPS may be dispatched to the:

- Montreal Exchange Office using the CAYMQA code
- Toronto Exchange Office using the CAYTOA code
- Vancouver Exchange Office using the CAYVRA code.

3.4.2.3 Labels and Bills for International Direct Entry Items

Dispatches of International Direct Entry items must conform to UPU requirements for receptacle labels.

USPS and Canada Post do not exchange paper documents, therefore, Letter Bills will not be enclosed with the dispatches.

The practice of sequentially numbered dispatches, sequentially numbered receptacles, total dispatch weight via PREDES is required. Note that International Direct Entry shipments must not be documented on commercial air waybills.

Canada Post's Electronic Shipping Tools must be used for all customer manifesting and International Direct Entry mailings. Each shipment will be accompanied by electronic

shipment manifest data that is compliant with Canada Post's Electronic Shipping Tool (EST) requirements as well as a physical copy of the Electronic Shipping Tool documentation must be attached to each pallet or receptacle.

3.5 Processing stream

The type of mail containerization/receptacle, as well as the receptacle disposition and returns, shall be as provided for in the applicable Customer Guide and related documents unless otherwise mutually agreed to.

3.6 Electronic message exchanges

3.7 Mailings that do not meet Applicable Requirements

The following replaces Section 5 (5.1 – 5.5) in the applicable Communications Guide and Section 8.3.5 in the Parcel Services Guide, under the General Terms and Conditions section entitled "Criteria for Qualification":

International Direct Entry mailings presented for mailing to CPC may be verified to determine compliance with the applicable terms and conditions.

In the event that Canada Post determines any item or mailing is not in compliance with the requirements for the designated type of service set out in the Agreement (or with the *Canada Post Corporation Act and Regulations*), Canada Post will discuss with the USPS alternatives including:

- (a) how to make the order documentation and/or Shipment compliant; and
- (b) the prices, surcharges and/or handling fees applicable based on the level of mail preparation and other requirements. In all cases the USPS will be responsible for such prices, surcharges and/or handling fees as may be applicable and agreed to.

Canada Post, at its discretion, may refuse to accept the item(s) or mailing that do not meet the applicable requirements for deposit.

4.0 GENERAL CONDITIONS FOR DOMESTIC ENTRY ITEMS

4.1 Contracting Options (Unaddressed Admail)

Option A (Access to Discounts): The USPS will be responsible to ensure each Originator who wishes to ship items pursuant to this Agreement completes such documentation as Canada Post may require for Unaddressed Admail. In particular, each Originator will be responsible to complete and enter into the agreement with Canada Post for the applicable Service(s). Such Agreement with Canada Post will be the same as the standard agreements signed by Canada Post with its domestic customers. The "Bill To" information will identify either the Originator or the USPS and will be determined on a case-by-case basis. The "Bill To" party will be liable for each such Shipment sent under this Agreement, including but not limited to payment and volume obligations. If the Originator is entitled to any rebates, such rebates will be paid directly to the "Bill To" address. Should the USPS be identified as the "Bill To" party, it will be responsible to make the necessary arrangements with the Originator with respect to such rebates.

Option B (No Discounts): If the USPS wishes to take full responsibility for each Originator's shipment, it may ship qualifying Unaddressed Admail items as per the

Canada Postal Guide (available at www.canadapost.ca/postalguide) at the Applicable Non-Contract Published Prices. Neither the USPS nor the Originator will be entitled to and both will waive all rights to any rebates or discounts that may otherwise be available.

4.2 General Provisions for [REDACTED] Items

- 4.2.1 [REDACTED] items shipped under this Agreement must meet all requirements for mail being "shipped within Canada". Domestic requirements for [REDACTED] are outlined in the CPC Parcel Services Customer Guide. Such items shall be treated as domestic items once inducted in the postal system in Canada by the USPS (or its agent acting on its behalf) and shall be delivered in accordance with the applicable Canadian domestic service standards.

The application of a work sharing discount associated with the automation of the shipment documentation process, however, will be contingent upon the U.S. Postal Service compliance with Canada Post requirements for [REDACTED] software and item level bar codes to generate electronic billing information within Canada Post.

4.2.2 Preparation, Samples and Deposit of Items Meeting Service Requirements

The USPS shall ensure all items being deposited as a Shipment meet all the conditions for preparation, packaging, addressing and depositing requirements as outlined in CPC Parcel Services Customer Guide

<http://www.canadapost.ca/cpo/mc/business/productsservices/shipping/parcelservicescustomerguide.jsf> CPC domestic conditions include in particular those applicable to the Service the Shipment is to qualify for (e.g., the approved Canadian postage indicia for the applicable Service). In accordance with each applicable Customer Guide, the USPS acknowledges it is responsible to provide samples for each Shipment.

In particular, and within a timeframe to be mutually agreed between CPC and the U.S. Postal Service, all shipments will be expected to conform to the following conditions:

- 1) each shipment will be accompanied by electronic shipment manifest data that is compliant with Canada Post's Electronic Shipping Tool (EST) requirements; and
- 2) individual postal items must have a single return address in Canada.

4.2.4 Return Service within Canada for [REDACTED] Items

All items will bear the Canadian Return Address (belonging to a commercial vendor who will facilitate returns to USPS). The cost for returns in Canada shall be borne by the USPS unless such items have been postage paid by the party sending the return item.

5.0 PRICES, SETTLEMENT AND ACCOUNTING

5.1 Prices

The prices for services offered under this Agreement are as follows:

- 5.1.1 [REDACTED] provides to the USPS a separate price sheet outlining base prices and other applicable charges. The pricing [REDACTED] is based on volume commitment of [REDACTED] pieces per year and on compliance with the requirement for preparation and deposit of items described above. The pricing is specified in [REDACTED]. During the Term of this Agreement, the prices applicable to each [REDACTED] mailing deposited by the USPS in accordance with this Agreement shall be calculated based on this Price Sheet, as it may be amended from time-to-time. The Customer Guide contains provisions for notice of changes to the price sheet.

Notwithstanding the usual price notifications that are sent from Canada Post from time-to-time adjusting prices for each customer, including the USPS, based on their then current volume commitment level and product preparation compliance, Canada Post will in advance of any such notification, do the following:

- i) determine the number of [REDACTED] items sent by the USPS in the 12-month period leading up to the notification date;
- ii) compare this number to the then current the USPS annual commitment level;
- iii) if the actual number of items exceeds the commitment level, notify a new higher commitment level with prices adjusted according to CPC domestic business practice; and
- iv) if the actual number of items is below the commitment level and/or product preparation compliance is proving to be an ongoing issue, notify an equivalent or lower commitment level with prices adjusted in the latter case, according to CPC business practice.

- 5.1.2 For all other Services not described above, the prices applicable to each mailing deposited under this Agreement shall be the Applicable Published Prices for such service.

5.2 Transfer of Funds

All payments due as a result of this Agreement shall be paid within [REDACTED]. The USPS shall transfer funds to the applicable USPS account held with Canada Post to cover such amounts. [REDACTED].

5.3 Time to Dispute

The USPS shall have [REDACTED] from the invoice date to dispute Canada Post's charges. In the event of such a dispute, the USPS must still make timely payment to cover the undisputed balance of the invoice. The Administrations shall work together to resolve any dispute to their mutual satisfaction.

5.4 Payment Terms

Except as otherwise provided for in this Agreement, all provisions relating to payment shall be as provided for in the applicable Agreement for the Services.

6.0 CONFIDENTIALITY

The terms of this Agreement are strictly confidential and shall not be made public or accessed by third parties without the prior written consent of authorized representatives from both parties.

Either the United States Postal Service or Canada Post may terminate the Agreement, or any service, at any time, without cause, by giving ninety (90) calendar days notice in writing to the other. Canada Post may immediately terminate the Agreement upon written notice to the United States Postal Service if the United States Postal Service continues to be in default of any of its material obligations for ninety (90) days after being provided with notice of the default and not having remedied the default within the ninety (90) day period.

Termination of the Agreement shall be without prejudice to any rights of the United States Postal Service or Canada Post that have accrued prior to the date of termination.

Neither party shall have a right to damages as a result of termination of the Agreement.

8.0 Entire Agreement and Amendment

- 8.1 This Agreement, including Annex 1 and any other document or portion thereof specifically referenced herein or in the Customer Guides, embodies the entire Agreement for the provision of the Services between the Parties and no representations, negotiations, or conditions either verbal or written shall bind the Parties except as expressly set out in this Agreement. This Agreement supersedes and invalidates all other agreements relating to the subject matter hereof which may have been made by the Parties either orally or in writing prior to the date hereof, including without limiting the foregoing, any non-disclosure or confidentiality agreements but does not invalidate any outstanding payment obligations arising under any such prior agreements.
- 8.2 This Agreement is a commercial agreement that is binding only upon CPC and the USPS and not upon their respective national governments. This Agreement may only be altered, amended, or extended by mutual consent, by means of correspondence between officials of Canada Post or the United States Postal Service who have been authorized to make such alterations or amendments. Any such amendments must be agreed to in writing.
- 8.3 This Agreement shall be deemed to have been signed on the same date as, and by the same representatives of the parties who signed, the Canada Post Corporation – United States Postal Service Contractual Bilateral Agreement. However, as a specific agreement attached to the latter agreement, this Agreement sets out its own terms and conditions and shall be interpreted as a complete agreement in itself without reference to the terms and conditions of the agreement to which it forms an attachment.

9.0 Agreement in Force

- 9.1 The Effective Date of this Agreement shall be January 1, 2014 and shall have effect until December 31, 2014. This Agreement shall be automatically extended for one (1) year (December 31, 2015), if no termination notice is given from one of the two Parties. Notwithstanding anything set out in this Attachment, Domestic Entry Services shall terminate automatically with the bilateral agreement.

All references in these provisions to "this Agreement" shall mean the agreement to which these provisions are attached.

1. The Parties agree that the Agreement of which this Attachment forms a part contains "Confidential Information". Further, the Parties agree that negotiations, including those related to the execution of a successor agreement, concerning modification or renewal of the rates, terms, and conditions that represent Confidential Information shall remain confidential and subject to the provisions of this Attachment. The Parties also agree that any personal information about an identifiable individual (including, but not limited to, the name and address of an individual) provided to it by the other Party or obtained by the other Party in providing services under this Agreement is "Confidential Information". With respect to all other information, the Parties agree that no obligations shall arise with respect to information not in writing and appropriately marked as "Protected", "Confidential", "Proprietary" or with a mark having a similar meaning. Each Party, as Disclosing Party, further agrees that information disclosed under this Agreement or related to this Agreement shall only be subject to these confidentiality provisions if the Disclosing Party reduces it to a written document that is appropriately marked as "Protected", "Confidential", "Proprietary" or with wording having a similar meaning, and provided to the other Party, as "Receiving Party" either at the time of its initial disclosure or if disclosed orally, within ten (10) business days after the initial oral disclosure. All information so identified and disclosed (the "Confidential Information") to a Party, as Receiving Party, shall be held in confidence by the Receiving Party and may not be released by the Receiving Party to third parties or used outside of the stated purposes of this Agreement, except to the extent paragraphs 5, 6, 7, 8, 9 and 10 of this Attachment are applicable, unless such disclosure or use is authorized in writing by an authorized representative of the Disclosing Party.

2. Each Party, as Receiving Party, agrees that the Confidential Information that the other Party discloses to it under this Agreement shall be held in confidence during the period that covers the Term of this Agreement and three (3) years thereafter. During that period, neither Party, as Receiving Party, shall disclose or use the other Party's Confidential Information outside of the intended purposes of this Agreement unless written consent is first obtained from the Disclosing Party, or unless the Receiving Party is no longer obligated to hold in confidence the information for the reasons specified in paragraphs 5, 6 or 7. All employees, agents or consultants of a Party, as Receiving Party, who are required to come into contact with the other Party's Confidential Information shall be notified of its confidential nature and shall be required by the Receiving Party to be bound by confidentiality provisions applicable to this Agreement, but not necessarily expressly applicable, and no less stringent than those set out in this Agreement.

3. Each Party shall provide the same care to avoid disclosure or unauthorized use of the other Party's Confidential Information as it would provide to maintain the confidentiality of its own confidential information, but in no event less than reasonable and prudent care. Each Party, as Receiving Party, agrees not to reproduce in any form or to distribute or sell, except as required in conjunction with the stated purposes of this Agreement, the Confidential Information of the other Party. Each Party shall retain the other Party's Confidential Information in a secure place that may be accessed only by those of its employees, agents, and consultants who need to know such information for the purposes of this Agreement.

- d. is required by an order by a court (subject to paragraph 6), legislative body, or regulatory authority to be disclosed because of an express determination that the information is not a trade secret, or privileged or confidential commercial or financial information; or
- e. the Receiving Party can demonstrate was independently developed by it without breach of this Agreement.

6. If a court or tribunal of competent jurisdiction orders the Receiving Party to disclose any of the Disclosing Party's Confidential Information, including that which may be contained in this Agreement, then the Receiving Party shall immediately notify the Disclosing Party. If the Disclosing Party elects to oppose such order, the Disclosing Party shall immediately inform the Receiving Party by notice to that effect. If the Disclosing Party so requests, the Receiving Party shall assist the Disclosing Party in opposing such order to the extent consistent with its management's policies. Where it is not consistent with the Receiving Party's management policies to oppose such order, Receiving Party shall inform Disclosing Party by notice to that effect and consult with Disclosing Party before making a final decision with respect to opposing the order. In addition, nothing in this Article is intended to modify United States Postal Service rules in Title 39, Code of Federal Regulations, section 265.8, concerning procedures to be followed when responding to FOIA requests for business information received from parties outside the United States Postal Service. In the event that the United States Postal Service or a competent judicial body determines that Confidential Information in question or any part of it is not exempt from release under FOIA, the United States Postal Service shall also promptly advise Canada Post of the steps that the United States Postal Service itself would take in similar circumstances to prevent further disclosure of the Confidential Information beyond the required disclosure under FOIA.

9. Canada Post may release Confidential Information if such release is required by the *Access to Information Act*, R.S.C.1985, c. A-1 ("ATIA"). However, nothing in this Article is intended to limit Canada Post's obligations under the ATIA and its regulations, including Canada Post's discretion to determine whether the requested information is required to be released under the ATIA. In the event that Canada Post or a competent judicial body determines that Confidential Information in question or any part of it is not exempt from release under the ATIA, Canada Post shall also promptly advise the United States Postal Service of the steps that Canada Post itself would take in similar circumstances to prevent further disclosure of the Confidential Information beyond the required disclosure under the ATIA.

**Certification of Prices for the Inbound Competitive Multi-Service Agreement with
Canada Postal Corporation (Canada Post)**

I, Virginia Mayes, Manager, Cost Attribution, Finance Department, United States Postal Service, am familiar with the prices for the Inbound Competitive Multi-Service Agreement with Canada Post. The prices contained in this agreement were established by the Decision of the Governors of the United States Postal Service on the Establishment of Prices and Classifications for Inbound Competitive Multi-Service Agreement, issued August 6, 2010 (Governors' Decision No. 10-3)

I hereby certify that the cost coverage for the agreement with Canada Post has been appropriately determined and represents the best available information. The prices are in compliance with 39 U.S.C. § 3633(a)(1), (2), and (3). The prices demonstrate that the agreement should cover its attributable costs and preclude the subsidization of competitive products by market dominant products. In Fiscal Year 2013, all international competitive mail accounted for a relatively small percentage of the total contribution by all competitive products. Contribution from this agreement should be much smaller. The agreement with Canada Post should not impair the ability of competitive products on the whole to cover an appropriate share of institutional costs.

**DECISION OF THE GOVERNORS OF THE UNITED STATES POSTAL SERVICE ON THE
ESTABLISHMENT OF PRICES AND CLASSIFICATIONS FOR INBOUND COMPETITIVE
MULTI-SERVICE AGREEMENTS WITH FOREIGN POSTAL OPERATORS
(GOVERNORS' DECISION NO. 10-3)**

August 6, 2010

STATEMENT OF EXPLANATION AND JUSTIFICATION

Pursuant to our authority under section 3632 of title 39, as amended by the Postal Accountability and Enhancement Act of 2006 ("PAEA"), we establish new prices not of general applicability for certain of the Postal Service's competitive service offerings, and such changes in classification as are necessary to implement the new prices. This decision establishes prices by setting price floor and price ceiling formulas for Inbound Competitive Multi-Service Agreements with Foreign Postal Operators. The agreements to which these prices will apply are described in Attachment A.¹ The pricing formulas and management's analysis of the appropriateness of these formulas are specified in Attachment B. We have reviewed that analysis and have concluded that the prices and classification changes are in accordance with 39 U.S.C. §§ 3632-3633 and 39 C.F.R. §§ 3015.5 and 3015.7. Agreements that fall within the terms specified in Attachment A, and whose prices fall within the price ranges established by the price floor and price ceiling formulas specified in Attachment B, are hereby authorized.

The PAEA provides that prices for competitive products must cover each product's attributable costs, not result in subsidization by market dominant products, and enable all competitive products to contribute an appropriate share to the Postal Service's institutional costs. We are satisfied that the prices established according to the formulas listed in Attachment B will enhance the Postal Service's ability to meet the applicable statutory and regulatory requirements. We accept and rely upon the certification in Attachment C that the correct cost inputs for the formulas have been identified. In addition, the price floor formulas should produce prices that allow each product to cover attributable costs and

provide a contribution toward the Postal Service's institutional costs. The prices should thus prevent cross-subsidies from market dominant products. As noted in the certification in Attachment C, entry into agreements pursuant to this Decision should not impair the ability of competitive products as a whole to cover an appropriate share of institutional costs.

No agreement authorized pursuant to this Decision may go into effect unless it is submitted to the Postal Regulatory Commission with a notice that complies with 39 U.S.C. § 3632(b)(3).

ORDER

In accordance with the foregoing Decision of the Governors, the formulas set forth herein, which establish prices for the applicable Inbound Competitive Multi-Service Agreements with Foreign Postal Operators, and the changes in classification necessary to implement those prices, are hereby approved and ordered into effect. An agreement is authorized under this Decision only if the prices fall within this Decision and the certification process specified herein is followed. Prices and classification changes established pursuant to this Decision will take effect after filing with and completion of review by the Postal Regulatory Commission.

Certification of Prices for Inbound Competitive Multi-Service Agreements with Foreign Postal Operators

I, Joseph Moeller, Manager, Regulatory Reporting and Cost Analysis, Finance Department, United States Postal Service, am familiar with the price formulas for Inbound Competitive Multi-Service Agreements with Foreign Postal Operators, which are set forth in Attachment B. I hereby certify that these formulas adequately represent all necessary cost elements. If the Postal Service were to enter into agreements and offer services that set prices above the price floors, the Postal Service would be in compliance with 39 U.S.C. § 3633(a)(1), (2), and (3). The price floor formulas are designed to ensure that each agreement and service should cover its attributable costs and preclude the subsidization of competitive products by market dominant products. In Fiscal Year 2009, all international competitive mail accounted for a relatively small percentage of the total contribution by all competitive products. Contribution from Inbound Competitive Multi-Service Agreements with Foreign Postal Operators should be much smaller. Even if all such agreements are signed with prices at the price floor, they should not impair the ability of competitive products on the whole to cover an appropriate share of institutional costs.
